

Enquiry Knowledge Organiser: How will we get around in the future? Year 2

Transport has changed over time and it is still changing now. Transport has changed to make it faster, better and more environmentally friendly.

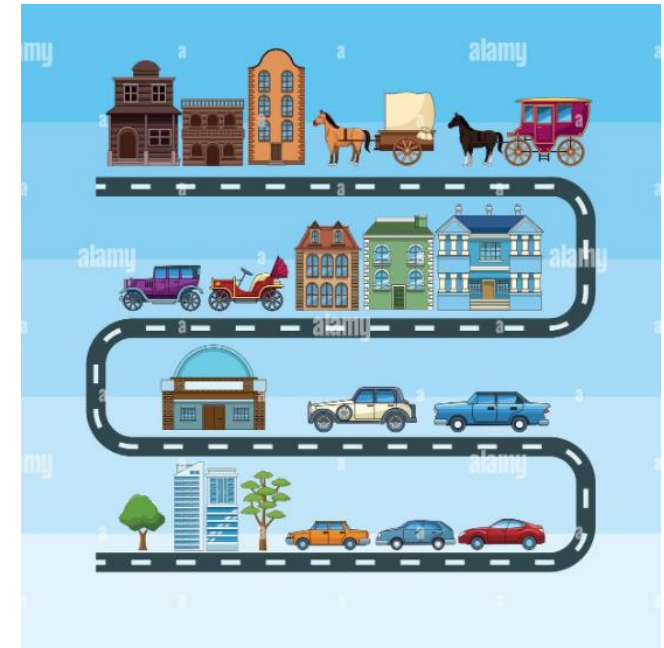

Key Vocabulary: past, present, Victorian times, 1950s, similarity and difference.

Engineer

Materials are chosen for their properties. We will select and combine materials to design our futuristic transport.

Key Vocabulary: model, construction, component, shaping, joining and finishing.

Geographer

The world is connected by transport and as the UK is an island, we have to use sea or air in order to travel.

Vocabulary: roads, motorways, rail links, airports, ports and docks.

What knowledge do I already have?

- We know the continents and oceans of the world.
- We have looked at maps to see where the Caribbean and UAE are.
- We have learnt about inventions from the Victorian times.
- We have used different joins to attach materials.
