

What could my classroom be made of?

Scientist:

I can say what I already know about materials and their properties.

Scientist:

I can identify and compare materials based on their properties.

Engineer

History:

I can talk about how buildings have changed over time and why.

Scientist:

I know the difference between man made and natural materials and can sort them into groups.

Scientist:

I can carry out an investigation to find out about how some materials can be manipulated.

Scientist

Historian

Engineer:

I can practise joining materials safely to build a model.

Engineer:

I can plan & design my outdoor storytelling space in pairs.

Author Writer:

I can evaluate my design based on what I know about materials.

Challenge!

Engineer:

I can create my outdoor storytelling space.
